BARNETT CALLUM

Geometry for Enjoyment and Challenge McDougal Littell
Essentials of geometry -- Reasoning and proof -- Parallel and perpendicular lines -- Congruent triangles -- Relationships within triangles -- Similarity -- Right triangles and trigonometry -- Quadrilaterals -- Properties of transformations -- Properties of circles -- Measuring length and area -- Surface area and volume of solids.
The Americans McDougal Littell/Houghton Mifflin
The theorems and principles of basic geometry are clearly

presented in this workbook, along with examples and exercises for practice. All concepts are explained in an easy-to-understand fashion to help students grasp geometry and form a solid foundation for advanced learning in mathematics. Each page introduces a new concept, along with a puzzle or riddle which reveals a fun fact. Thought-provoking exercises encourage students to enjoy working the pages while gaining valuable practice in geometry.

Algebra 1 McDougal Littell/Houghton Mifflin
Helps prepare students for document-based assessment in world history and world geography. Includes test-taking strategies,

practice tests, and answer keys with scoring rubrics.

McDougal Littell Science McDougal Littell

A visual approach to world geography.

McDougal Littell Science McDougal Littell/Houghton Mifflin

Transports students beyond the classroom on an exciting journey through the diverse Spanish-speaking world. The perfect blend of culture, instruction and interaction enables and motivates students to succeed. Units are built around countries and cities. Relevant instruction is based on multi-tiered differentiation in presentation, practice, and assessments.
