Milady Publishing
Corporation

Milady has evolved for over 85 years to become what it is today, the cornerstone of beauty and wellness education. We are very excited and proud to announce the latest edition of Milady Standard Cosmetology, the most commonly used resource in cosmetology education. For decades

since our first textbook published, it has been our commitment to provide students with the foundation in the principles and skills needed to master the science and art of cosmetology, and with this latest version that commitment has not waived. For the new edition, celebrity stylist Ted Gibson served as Creative Director on the project. The result is a brilliant new design with over 750 new photos and a gorgeous layout, providing a visually stunning resource to engage today's learner. We also recruited a team of twelve authors, made up of top professionals and educators in the industry, to provide the most current information on concepts and

techniques. During our extensive peer review and development process, we were asked for a resource that placed emphasis on essential content needed for licensure success, and we feel confident that we delivered. Milady Standard Cosmetology will continue to be a source of education that students can count on, not only while in school, but throughout their careers.

Cosmetology Appointment Book

Milady Publishing Company
Makeup artists can plan new designs or practice techniques with this book of face charts. The face charts are ready for your creative touch. They each have a feminine minimalist face and swatch boxes to quickly view your color palette. Each face chart page also has room for you to record the products, colors and brands used to create your unique look. In this way, makeup artists can create a reference book and portfolio for personal or professional use. The spaces used for record-

keeping can include details about products used on the face (foundation, contour, concealer, blush, highlights), the eyes (brows, lids, crease, liner), the lips (liner, color, gloss), and details about the client or intended wearer (skin tone, hair color, eye color). Pages are one-sided to keep different designs and color samples from rubbing against each other. The paper is smooth, regular paper. Not textured. 8.5" x 11" page sizes Facial features (eyes, brows, nose, mouth) are light grey so they don't show through your makeup designs Enough space for 50 unique designs Great for practicing contouring or color combinations A great workbook for

cosmetology students Also ideal for makeup artists who work in theater or film Black and white interior pages These face charts are ideally used with actual makeup. Because of the smooth paper texture of the paper, some makeup products may perform better than others. Other coloring materials such as colored pencils, chalk, or crayons can also be used.
