"This heartfelt, witty addition to women's fiction will appeal to fans of Elizabeth Berg and Anna Quindlen." (Booklist) Georgia Waltz has things many people only dream of: a plush Manhattan apartment overlooking Central Park, a Hamptons beach house, valuable jewels and art, two bright daughters, and a husband she adores, even after decades of marriage. It's only when Ben suddenly drops dead from a massive coronary while training for the New York City Marathon that Georgia discovers her husband—a successful lawyer—has left them nearly penniless. Their wonderland was built on lies. As the family attorney scours emptied bank accounts, Georgia must not only look for a way to support her family, she needs to face the revelation that Ben was not the perfect husband he appeared to be, just as her daughters—now ensconced back at home with secrets of their own—have to accept that they may not be returning to their lives in Paris and at Stanford subsidized by the Bank of Mom and Dad. As she uncovers hidden resilience, Georgia's sudden midlife shift forces her to consider who she is and what she truly values. That Georgia may also find new love in the land of Spanx and stretch marks surprises everyone—most of all, her. Sally Koslow's fourth novel is deftly told through the alternating viewpoints of her remarkable female protagonists as they plumb for the grit required to reinvent their lives. Inspiring, funny, and deeply

satisfying, *The Widow Waltz* explores in a profound way the bonds between mothers and daughters, belligerent siblings, skittish lovers, and bitter rivals as they discover the power of forgiveness, and healing, all while asking, "What is family, really?"

To Mr. Tate Howard, You are quite possibly the most infuriating, annoying and grumpy man I've ever met in my life. I know you think that you're God's gift to women, but I have a secret to let you in on: you're not. You're God's gift to yourself. Get over your wanna-be cool surfer self and grow up. I thought it was time that someone addressed your big head and told you straight to your face that you're not all that. Just because you have an Ivy league education doesn't mean you're the smartest man in the world. In fact, I'm not even sure if you would have gotten in if you didn't have rich parents. Yes, I went there. Every woman doesn't want to sleep with you and I'm sure you're not even good in bed. And I'm someone that would know. The #1 New York Times bestselling author of *Beautiful Tempest* and *Make Me Love You* brings her "mastery of historical romance" (Entertainment Weekly) to 1880s Montana where passions and gold fever run high as an American heiress turns to a rugged mountain man to help her locate her father's fortune. After a social whirlwind in London, Violet Mitchell is summoned back to Philadelphia only to discover her family living on the edge of financial ruin while their father seeks new wealth in Montana's gold fields. With the family's home and social standing at risk, Violet makes a drastic decision. Meanwhile, Montana rancher Morgan Callahan rode away from his family's cattle farm to make his own fortune. Now as he finishes exploiting a mother lode of silver, a young woman claiming to be his late partner's daughter turns up wanting to be taken to her father's mine. Suspecting that the pretty schemer works for the mining outfit that is trying to

steal his land, he has no qualms about snatching her and holding her at his camp where she can do no harm. But he underestimated the new thorn in his side. Determined to claim what rightfully belongs to her family, Violet summons up the courage and grit to cope with the hazards and discomforts of an untamed land and the disturbingly masculine stranger who holds her fate in his hands. But an error of judgment brings down a hailstorm of danger that upends her plans and deepens her bond to a man who may turn out to be all she desires. With her signature "strong characters, humor, interesting plots—and, of course—romance" (The Cincinnati Enquirer), Johanna Lindsey crafts another irresistible and adventurous love story.

A Lone Walk Hodder Education

Since the mid-1960s, Gordon Rohlehr has been an incomparable recorder and analyser of Caribbean literature and culture and their intersection with history and politics. His work on the emergence of Caribbean writing from its colonial shell and his analysis of calypso as the voice of Trinidadian consciousness establishes him as essential to our time as William Hazlitt was to the early 19th century in documenting and characterising the turbulent spirit of his age. Radical, but never willing to compromise his sense of what was fraudulent or power-seeking amongst his fellow travellers, Rohlehr is the best touchstone we have for both what the Caribbean has achieved and of its struggling, neo-colonial fragility in the face of the new imperialism

of economic and cultural globalism. Now - though who knows? - in putting together what he says is his last book, Gordon Rohlehr doffs the costume of the carnival figure of the "Bookman", the recording Satan of the devil band, who walks with his book in which he writes down the names of the damned. And here we have the clue to the fact that along with the serious analysis of calypso, his summing up of what is essential in the work of Derek Walcott, Earl Lovelace and V.S. Naipaul, and the essays of remembrance for those like Walcott, Lloyd Best, Pat Bishop, Tony Martin and others who have made their earthly exits, there is a devilish humour at work. This comes out particularly in an essay that joyfully demolishes an attempt to characterise the Caribbean in any other than its own terms - as a new Mediterranean, for instance - and the subservience of Trinidad's rulers to the neo-colonialisms of tourism, visiting American ships and the U.S. embassy. What is often salutary, if uncomfortable, is to be reminded by the long span of Rohlehr's observations that problems seen as contemporary were being identified by the nation's calypsonians sixty years ago. Rohlehr's voice is always distinctively personal, though the Bookman has rarely revealed much of himself, but in one of the concluding essays he writes about his Guyanese upbringing from the 1940s to the 1960s in a way that is both very funny and sad and gives an understanding of what has shaped his vision.

Can drinking coffee help people live longer? What makes a stock's price go up? Why did you get the flu? Causal questions like these arise on a regular basis, but most people likely have not thought deeply about how to answer them. This book helps you think about causality in a structured way: What is a cause, what are causes good for, and what is compelling evidence of causality? Author Samantha Kleinberg shows you how to develop a set of tools for thinking more critically about causes. You'll learn how to question claims, identify causes, make decisions based on causal information, and verify causes through further tests. Whether it's figuring out what data you need, or understanding that the way you collect and prepare data affects the conclusions you can draw from it, *Why* will help you sharpen your causal inference skills.

The deteriorating condition of federal facilities poses economic, safety, operational, and environmental risks to the federal government, to the achievement of the missions of federal agencies, and to the achievement of public policy goals. Primary factors underlying this deterioration are the age of federal facilities--about half are at least 50 years old--and decades of inadequate investment for their maintenance and repair. These issues are not new and there are no quick fixes. However, the current operating environment provides both the impetus and the opportunity to place investments in federal facilities' maintenance and repair on a new, more sustainable course for the 21st Century. Despite the magnitude of investments, funding for the maintenance and repair of federal facilities has been inadequate for many years, and myriad projects have been deferred. *Predicting Outcomes of Investments in Maintenance and Repair of Federal Facilities* identifies processes and practices for transforming the current portfolio of federal facilities into one that is more economically, physically, and environmentally

sustainable. This report addresses ways to predict or quantify the outcomes that can be expected from a given level of maintenance and repair investments in federal facilities or facilities' systems, and what strategies, measures, and data should be in place to determine the actual outcomes of facilities maintenance and repair investments.
